## DELAY ERECTION OF CITY HALL FOR FIVE YEARS, SAYS CANDY

Commissioner Declares \$2,000,000 Structure Will Be Required, But That Other Utilities Should First Be Given Consideration—Building Material Would Be Cheaper

Not for five years yet should Edmonton undertake the construction of a new city hall, according to Commissioner S. W. Candy. At this time the administration is gathering information to determine the amount of room that will be necessary in the proposed new public building. The mayor has asked the various heads of departments who anticipate having offices in the new city hall, to report to him the amount of office room they will require not only at present, but in the future. These department heads are so report, at hand, an idea can be gleaned as to the necessary size of such a building. The status of the city hall situation is in this shape.

This morning Mr. Candy expressed a hope that the city would not undertake the erection of a city hall for several years yet. He heartily endorsed the suggestion that the municipality erect a business block at this time, in preference to a city hall, utilize the top floors for city offices and let the bottom floors to business purposes. And he had argued to support his position.

Within a few years the Grand Trunk Pacific will have been built through the mountains and through vast deposits of marble and granite, building material that would bankrupt the city to procure at this time. With those deposits available by the railroad, this building material will enable Edmonton to erect a city hall of which it will be proud for years to come, as cheaply as it would be able to erect a much inferior structure now. Mr. Candy would save \$2,000,000 in building a city hall. Such a sum of money, he considers, is entirely without the reach of the city at present. He considers that the municipality is too small at this time to undertake to build the reach of the city at present. He considers that the municipality is too small at this time to undertake to build the reach of the city at present.

## GETTING READY TO TRY MINISTER

BOSTON PROSECUTOR HAS GREAT DIFFICULTY IN SECURING AN IMPARTIAL JURY

(Special to The Capital.) Boston, Mass., Dec. 26.—A special venire for jurors for the trial of Rev. Clarence V. Rice, charged with the murder of Avis Lincolnton, was issued today. About 250 men will be drawn for the trial, which will begin January 15. Considerable difficulty is expected in securing twelve unbiased men to hear the evidence in the case. The issuance of the venire is believed to remove all question as to whether the trial will begin on the date set. Almost a precedent will be established for Massachusetts by the speed with which Rice will face the accusation. When the impeachment of the jury begins, on January 15, it will be approximately three months to a day from October 11, the date upon which Avis Lincolnton died of cyanide poisoning.

## NEW COMMISSIONERS TAKE OFFICE JANUARY 1

No Definite Decision Reached to Date as to When Commissioner Candy Will Retire from Civic Board—Will Tender Resignation

In that but one week remains before A. G. Harrison and John Chalmers will assume office as city commissioners, there is considerable speculation as to what is programmed for Commissioner S. W. Candy who has stood by the commissioners through thick and thin, during the past year through numerous breakers and many temptations. Although baffled considerably, entirely of course, by the numerous breakers and many temptations, he has stood by the commissioners through thick and thin, during the past year through numerous breakers and many temptations.

Just how long Mr. Candy is to remain one of the board on commission is yet a question. It is a question that Mr. Candy himself cannot answer. No one has yet come to him with a vote of thanks for past services and a suggestion that the burden of responsibility be lifted from his shoulders. And likewise no one has suggested that he continue to labor in the cause of municipal upbuilding. The commissioner himself knows as little about his future program as anyone else, and does not seem to be worrying about it either, not asking to see the distant future, but content with the present.

When asked this morning what his program for the future was, the mayor remarked that until this time the mayor

## AGENTS FOR HILL GETTING OPTIONS

THINK TERMINAL WILL BE BETWEEN PORT ARTHUR AND FORT WILLIAM.

(Western Associated Press.) Winnipeg, Man., Dec. 26.—That the lake terminal of the Midland railroad, will be between Port Arthur and Fort William is a well defined rumor which is circulating in the Twin Canadian cities. It is stated that already the agents for James J. Hill, have secured options on property in that locality to the extent of hundreds of acres, and that many more property owners are being approached. According to the rumor, the Hill corporation has had a number of engineers exploring the country between Winnipeg and Port Arthur, and that their report has been to the effect that no difficulty will be experienced in constructing the road to the twin cities. By this the Midland railroad will be able to tap the projected inter-city canal, and in that way gain direct access to the great lakes, which would otherwise be only accomplished by a deal of difficulty owing to the fact that the lake frontage in that district is owned by the G. N. and C. P. railroads. The proposed inter-city canal, and in that way gain direct access to the great lakes, which would otherwise be only accomplished by a deal of difficulty owing to the fact that the lake frontage in that district is owned by the G. N. and C. P. railroads.

## CONSERVATION TO BE DISCUSSED

EDUCATORS OF UNITED STATES NOW HOLDING THEIR ANNUAL CONVENTION AT STOCKTON

(Special to The Capital.) Stockton, Cal., Dec. 26.—More than one thousand visitors, among whom are many educators of wide reputation, are in Stockton to take part in the annual convention of the California Teachers' association and the meetings of several allied bodies. The proceedings began today and will continue until the end of the week. One of the most interesting and important features of the gathering will be a conference on rural schools and conservation, the first meeting of its kind to be held in California, and which will have former Governor Pardee and other persons of prominence as speakers.

## WINNIPEG IS CUT OFF FROM EAST

COLD SNOW RESULTS IN SNAPPING OF TELEGRAPH WIRE—REPAIR OUTFITS BUSY.

(Western Associated Press.) Winnipeg, Man., Dec. 26.—Winnipeg is almost entirely cut off from telegraphic communication with eastern Canada and the United States points to day, the cause being the severe cold spell which has tightened up wires so suddenly as to snap them in places. The C.P.R. cannot get point to point communication with the west, though the G.N.R. has maintained communication with the east. The telegrapher in the Western Union is in trouble on the side of Fargo, N. D., and the postal is working one wire under difficulties.

The C.P.R. is running light engines with repair outfits over the line affected and control is expected shortly. Wires working west are in better shape. The cold spell was ushered in on Christmas eve, the thermometer standing from 10 to 20 below in Winnipeg all Christmas day, and dipping to 30 below at some points in the province last night. It is a good deal milder in Saskatchewan and Alberta.

## NICE XMAS PRESENT

(Western Associated Press.) Regina, Sask., Dec. 26.—Finley Kennedy, Douglas Lake inspector, was just sitting down with his family to his Xmas dinner when he received word from the department of interior at Ottawa, that he had been dismissed from his position.

## TURBO-GENERATOR WILL BE READY FOR OPERATION SHORTLY

Big "Juice" Producer at Power Plant Turned Over for the First Time Yesterday—Adds 2000 Kilowatts to Present Capacity

In the presence of the mayor and Commissioner Candy, power house officials and several others, the two thousand kilowatt steam turbine electric generator, being installed at the power house was turned over yesterday for the first time. And this means that it will be but a very few days before it will be sending alternating electrical current over the wires to illuminate the city and likewise the motors driving direct current machines. Several days are really necessary to get the generator in shape to run. A machine it is operated just enough to bring it up to a fixed temperature and to keep it from becoming too hot until the insulation etc. are thoroughly dried. This process once started cannot be stopped, the machine being kept turning over three or four days constantly. Forty-eight hours, at a pinch, might be sufficient for the company installing the machine to take a chance, but no less than unless the city wished to assume responsibility. Consequently it will be a little time before the new machine will be connected up and turning out commercial electricity. The new machine may possibly be put into service tomorrow at a pinch, and indeed the pinch is here today.

Today has been almost an electrical famine in direct current. The street railway departing for hours today on a longer interval service, the 12 1/2 minute lines being put back to 15 minutes, and a section of the street car line at the power house which poses to collect a possible.

Will Need All Current. So great has been the increase in electrical demand that the city will need practically every kilowatt the new turbine generator will be able to turn out. With the operation of the machine it will be possible to again operate the motor generator set at the power house. A secretary of alternating current caused this machine to be shut down last week. Already the city commissioners have turned their attention to providing more machinery, both of direct current and the alternating current type. Committees have been appointed to determine the machinery to be needed next year and to report upon the same. It is proposed to order machinery this year in ample time to permit of delays and unanticipated interruptions. The new machine just installed will be behind the date called for in the contract. The Western Union people are under a \$100 a day penalty which the administration proposes to collect if possible.

## RUSSIAN TROOPS GUILTY OF HORRIBLE ATROCITIES

Over 1000 men, Women and Children Massacred After the Battle to Tabriz—Cossacks Murder Wounded Prisoners and Mutilate Little Children

(Western Associated Press.) London, Eng., Dec. 26.—One thousand men, women and children have been butchered at Tabriz by Russian soldiers and the slaughter still continues, according to a report received here today. Russian officers are reported to be making no attempt to check the cruelty of their men, who go about the streets bayonetting all pedestrians and looting the bodies of their victims.

The battle between the Fidis and the Russian troops is still raging around the ruins of the government palace. It is estimated that 150 Russian soldiers have been slain. The Persians are fighting with valor, and are showing they are showing they are excellent marksmen.

A large force of Cossacks arrived at Tabriz today. The soldiers are enraged over the losses they have suffered at the hands of the Fidis and several wounded Persian soldiers have been subjected to hideous tortures. Hundreds of homes have been looted and burned. It is believed that the entire city may be destroyed.

## MAKERS TEACHING IS MORALLY DEGRADING

Ex-Moderator Presbyterian Church Scores Catholic Divine for His Interpretation of "Ne Temere" Decree—Hypothetical Case Is Discussed

(Western Associated Press.) Winnipeg, Man., Dec. 26.—The Tribune, which last Saturday published a somewhat sensational statement by Father Duval, who had interpreted the Catholic church's interpretation of the Ne Temere decree, gave prominence that afternoon to a reply by Rev. Duval, ex-moderator of the Presbyterian church of Canada.

After saying that it is impossible to pass over in silence this delinquency, Rev. Duval discusses the hypothetical case advanced of a Catholic, who had married a Protestant without permission and wished to make another marriage. "We find here," says the Presbyterian divine, "first, not only simple bigamy, but secondly there is a dishonouring of the law of the state which authorizes the marriage. Thirdly, it implies that the Protestant wife has no rights of conscience which the Roman Catholic man would respect, fourthly, in this the Roman church outrages the natural law and the natural rights of man."

The common law which gives the Protestant to a "common-law wife" is better ethics, when it influences the noble heart to stand by the mother in support of the young. But further the priest says that this traitor husband, after leaving his Protestant wife, may take up with a Catholic, an adulterous relation to another woman and by so to the priest and a secret marriage which shall be good in "the eyes of God and church."

So people of natural moral instincts this is a blasphemous defamation of God, a putting of an arbitrary authority of the Papal system in the place of the spirit of God, to the cursing of humanity. Rev. Duval closes with an appeal "to our more intelligent Roman Catholic fellow citizens," against submitting to a teaching that in itself is morally degrading and may open the way for conscienceless creatures to degrade Protestant women and then leave them to their fate.

## MUSIC TEACHERS AT ANN ARBOR

NATIONAL ASSOCIATION OF AMERICAN NOW IN SESSION—MANY PROMINENT SPEAKERS

(Special to The Capital.) Ann Arbor, Mich., Dec. 26.—The Music Teachers' National association, which for thirty years has served as a center for every class of earnest music workers, met here today for its annual convention. The sessions will last four days and will be devoted to the discussion of a wide range of topics. After Dr. Louisa G. B. H. and Professor Robert M. Wenley of the University of Michigan.

## GENERAL REYES IS UNDER ARREST

CHARGED WITH PLOTTING TO OUST THE MADERO GOVERNMENT—FOLLOWERS FREED

(Western Associated Press.) Mexico City, Dec. 26.—Gen. Bernardo Reyes who surrendered to the Carranza forces, today will be brought to Mexico City to answer to the charge of sedition in answer to Reyes' appeal for Carranza for his fall. Minister of War Salia has promised "All consideration compatible with the law will be given to his case and he will be allowed to lay down his arms unconditionally." Besides the official announcement of the surrender, Mr. Minister Salia has himself declared that his call to the Carranza forces was the result of the army and the people to resist in his case has met with no response. "Not a person has complied with my demand," he is quoted as saying. "This demonstration of the sentiment of the nation obliging me to how before I was and before the impossibility of war, I have come to this city today to put myself at your disposal for such action as you may take."

## \$500,000,000 NEEDED FOR NAVAL DEFENCE

Intention Is to, At One Stroke, Place Britain's Navy Far Ahead of Germany's—German People Demand That Nine Warships Be Laid Down

(Western Associated Press.)

London, Dec. 26.—England is face to face with the necessity for a \$500,000,000 naval loan, the scheme was launched more than a year ago by the Unionists, but was ridiculed by the government. Now, however, the highest authority that Winston Churchill, who has just taken charge of the navy, will maintain the huge naval loan when the navy estimates are laid before parliament early next year. The idea of the young minister, of course, is to place the British navy at one stroke in a position of strength undreamed of by Germany.

When Churchill took charge as first lord of the admiralty, a position corresponding to that of secretary of the navy in the United States, people predicted that things would happen. Few expected, however, that anything so sensational would develop as a clean sweep of the board of admiralty, which is the executive committee that runs the king's navy under the first lord's direction.

Churchill's coup must have proved

a bitter disappointment to Admiral Sir Wm. May, who was actually named as first sea lord, or chief of the board of admiralty, in succession to Admiral Sir Arthur Wilson, a member of the board of natural events, would have retired under the age limit next March.

Admiral May was not "bumped," however, and when it became apparent that the relations between Germany and England were entering on another period of stress and delay he was quietly pushed aside and Admiral Sir Francis Blandford was appointed to the post.

There are a number of reasons for this clean sweep, and the most important of all is that it is a notification to Germany that England is ready to fight. The new board of admiralty, on November 27, Sir Edward Grey made his speech on foreign affairs in the House of Commons and declared that England would stand by her friends, France and Russia. On Tuesday the king's German newspapers will have one voice declared Germany must build more warships.

## British Vessel Is Raided by Pirates

Crew Puts Up a Gallant Fight, But Ship Is Looted and Passengers Robbed of Money and Valuables—Celestial Pilot Proves a Traitor

(Western Associated Press.)

Vancouver, B.C., Dec. 26.—Details were received by the Express of the fate of the prize of the British steamer Shouan and the murder of Chief Officer H. J. Nicholson after a gallant fight in which he and his crew killed six pirates. The steamer from Kanton for Hongkong, with 143 passengers and its officers' quarters riddled with bullets.

The Chinese pilot who held the vessel was in league with the pirates, and when Captain Johnson and Chief Officer Nicholson kept the vessel from the shore, the pilot, who was on the island, awoke the captain but volleys came from the land. Then the fleet of small boats came on in the darkness and thirty pirates clamored over the rail. Captain Johnson ran to his cabin and his rifle, but found that his ammunition had been stolen. He then wriggled through a small port in the quartered side of the steamer, fracturing two ribs and armed with a revolver went after the pirates.

In the face of the fusillade of rifles, Chief Officer Nicholson ran to his cabin, seized a rifle and ammunition and joined the captain. Then there was a lull. The Chinese passengers took to part and only two were hit by stray bullets while lying in their bunks. Captain Johnson had but two bullets and he shot two pirates and one for shelter. Nicholson, with a staunch only

supporting an aching for shelter, faced a gang of pirates and brought four of them down when he was shot in the abdomen and left lying on the deck. Then the pirates went for the British engineer but he fought them off with a scaling jet of water, leaving him the pirates, both of the vessel. The passengers were lined up and robbed of their luggage, it being piled in the sampans.

The bodies of dead pirates were thrown into the river, and their comrades made off in their sampans. They got about \$2,000.

The steamer Kwong Yuen was also pirated and some Chinese were killed. Trade is at a standstill on the West river, which is now patrolled by British gunboats.

## FORESTRY CONVENTION.

(Special to The Capital.) Ottawa, Dec. 26.—The members of the Canadian Forestry association and others interested in forest conservation will on February 7th and 8th, 1912, gather in Ottawa to discuss what they hope will be the most practical program of any of their conventions.

In N. H. the Duke of Cornwall, evinces his interest in the subject by extending his patronage to the gathering.

Lock and chained over admitted in evidence against the firm of Harris & Black, on trial for robbery. The man in the picture is one of more than a hundred of their employees. The hand points to the shot hole, which it is claimed could not have been made since the fire broke out. The condition of the door would have afforded escape to many of the girls penned in, was locked.

Materials are Voiles, Serges, Panamas, Tweeds, Venetians and Chiffon Broadcloths; in all this season's latest styles. Starting Tuesday, your choice **ONE-QUARTER OFF**.

**THE HUDSON'S BAY COMPANY**

**REPORT ON HIS WINNIPEG TRIP**

**SUGGESTS PROVINCIAL LEGISLATION TO THE CITY HOSPITAL.**

Some provincial legislation to benefit the city hospital, among other things, is suggested by George Adams, secretary of the Edmonton hospital, who has recently returned from a trip to Winnipeg. He visited Winnipeg a short time ago for the purpose of inspecting the hospital of that city and investigating the form of management. Mr. Adams has submitted a comprehensive report to the hospital board, and a copy of this report has been received by the city commissioners and was upon the table this morning.

Mr. Adams suggests that Alberta follow the precedent of Manitoba in regard to providing fees for the sick poor. At the present time residents of outside cities come to Edmonton for hospital treatment. Those without funds in many instances, have to be borne by the hospital when, with proper legislation, their treatment might be charged to the municipalities from whence they come. Edmonton allows a small daily fee for the sick poor. Sick poor from other cities often get in the institution where no such provisions are made. And the hospital loses. Such legislation is afforded in Manitoba and Mr. Adams suggests that something to this effect might be effected in Alberta.

Among the other suggestions of the

secretary is that less compensation be paid nurses in courses of training. At the present time nurses in training are paid \$8 a month for the first year, \$10 a month for the second year and \$12 a month the third year. Three years entitles the nurse in training to graduation from the school. At Winnipeg this fee is much smaller, the initial compensation being merely uniform and text books for the first six months, then \$4 a month and a gradual increase, never amounting to more than sufficient for car fare and minor incidentals necessary. And Winnipeg has no difficulty in keeping a full staff of nurses in training with several on the waiting list. The reports of the secretary says that in the past some difficulty has been experienced in getting capable young women desirous of entering the training school, but no such trouble is anticipated when the new hospital is completed. More commodious facilities and accommodations will eliminate many of the present difficulties, make the training more enjoyable and the field more inviting.

The report also details the extent of staff at the Winnipeg hospital, salaries, functions of the various department heads.

William N. Wilson appeared before Magistrate Gowan this morning charged with beating his board bill at the Savoy hotel to the amount of \$12.50. The trial was set for tomorrow afternoon at 2 o'clock.

Several drunks were released the dockets this morning as the result of Xmas jags and in keeping with the season were allowed to go on suspended sentence.

Born—To Mr. and Mrs. A. Bowling, 1124 Fifth street, Saturday evening, a daughter.

**RAPID PROGRESS ON NEW INGLIS PUMP**

**MACHINES INSTALLED HAVE A CAPACITY OF 10,000,000 GALLONS EVERY 24 HOURS.**

Work is proceeding nicely with the erection of the six-million gallon turbine low lift John Inglis pump at the water pumping station. The high duty pump is somewhere between New York and Edmonton, headed this way with a hurry-up sign attached to it. Both these pumps should have been operating long before now. The Moran Engineering company of Seattle is under a \$25 a day penalty for non-delivery, and the administration purports to collect every nickel of it.

The foundations for the high lift pump have been in long ago. Pipes and fittings for the new machine have been ordered and it is produced that this pump is to be assigned the task of drawing the water from the river and discharging it in the sedimentation basin. The Moran pump, six million gallon high duty machine is to be installed in addition to the pumps

house and its function will be taking water from the clear water basin and forcing it up the hill through the city mains. Consequently proper operation of both pumps will be necessary for results.

**Machinery Failure.**

With the installation of the new six million gallon pumps, Edmonton will have machinery which, if operated to its rated capacity and kept in good working order, would supply a city five times the size of Edmonton. The rated capacity of machines will be about 15,000,000 gallons every twenty-four hours. Edmonton is today consuming about three million gallons. More water is pumped but a great deal of water is consumed at the power plant. That then alone approaches a million gallons every twenty-four hours.

**City Hall Notes**

The street railway superintendent is to have revised and printed a set of bylaws for governing the conduct of motor men and conductors.

City Assessor D. M. McMillan is urging everybody to pay their taxes by the first of the year as he wants to have as little money outstanding as possible.

There is again recognized in city hall the necessity of having the city bylaws compiled and put into book form. At present they are in such shape that no one knows what ordinances have been passed, what ones have been repealed, which are dead, which conflict one with another, etc.

This realization comes periodically. At one time it reached such a stage that the city solicitor was requested to gather together the various pieces of municipal legislation from time to time, preparatory to putting them in tangible form.

Suggested by a claim against the city for \$75 damages for a wagon struck by a street car, the mayor assumes the position that the city should fight every damage case to a finish. Every Tom, Dick and Harry, says his worship, who has in accident bumps on the city for damages. The mayor would fight all cases and so discourage damage suits and claims that they would be a minimum.

The street railway superintendent announces that as quickly as he can get power a fifteen minute street car service will be run to North Edmonton night and morning. Next spring a through service is to be inaugurated.

At present the through service, recently petitioned for, is not practical.

Property owners on Athabasca and one between Eleventh and Twelfth streets wish a concrete sidewalk laid on both sides of the thoroughfare between the streets mentioned, petition for the improvement was recommended by the city commissioners this morning, providing the required number of signatures are attached to the petition.

## PRESS AGENTS SAY

BERNARD'S COMPANY'S  
CHRISTMAS PARTY

One of the best exhibitions of bon camaraderie in the Theban world took place at the Lyceum theatre on Saturday night after the last show when the members of Harry Bernard's Merry-makers company had their Christmas celebration. First of all prodigious quantities of Tom and Jerry were manufactured and then an enormous Christmas tree revealed from his hiding place, loaded down with presents. Business Manager Thompson acted as Santa Claus and was kept busy for over an hour distributing the gifts to the members of the company. Harry Bernard gave his chorus partners the most appreciated present of all—an increase in salary all around.

DE PACHMANN CONCERT.

The sale of seats for the De Pachmann opened in the Empire yesterday and from the number that was taken it will be a matter of a very few days and the Empire house will be sold. This will certainly be the last chance that you will have to hear this famous pianist and do not leave it to long in getting your seats.

## SEVERAL SCORE PERSONS DEAD

GOVERNOR'S PALACE REDUCED TO  
RUINS AND RESIDENCES RIDDLED  
WITH BULLETS.

(Western Associated Press.)  
St. Petersburg, Dec. 25.—At least seventy-five Persians have been killed and scores have been wounded in the fighting at Tabriz. The city tonight is in chaotic condition. At least seventy-five Persians have been killed. The governor's palace has been reduced to ruins and many private residences riddled by the fire of the Russian soldiers. Residents of Tabriz have been informed that the Persian government had decided to grant the Russian demands but this has only inflamed the people who are anxious to hold out against the invading forces. It is feared that serious trouble will develop.

A large force of Persian troops is advancing toward Tabriz tonight for the purpose of driving out the Russian soldiers who have wrecked the governor's palace and several residences with artillery. The Persian soldiers will reach Tabriz tomorrow and a bloody encounter is expected.

## MURDER MYSTERY NOT YET SOLVED

CORONER'S INQUEST FAILS TO  
THROW ANY LIGHT UPON MYST-  
ERIOUS SLAYING

(Western Associated Press.)  
Missouri, Mo., Dec. 25.—That Kenneth Kingston was killed on Thursday, December 14th, by a wound from a bullet fired by some one unknown was the verdict rendered last night by the coroner's jury. A post mortem examination showed that the deceased had been shot in the back, the bullet passing through his body and tearing the lungs badly. There was no sign of any struggle where the body was found, which would indicate that death was instantaneous and that the deceased was shot down in the spot where the body was found. However this is not generally believed here, there being suspicion that the body may have been placed on the trail by other parties. The two trappers who found the body were the men suspected of having possibly shot Kingston in mistake for a deer; but after being subjected to a most severe examination by the police and afterwards by the coroner and jury, it has been impossible to shake their testimony or to find any evidence against them.

The inquest by no means ends this case. The authorities at Ottawa have taken up the matter and intend to spare no pains or expense to clear up the mystery. The police are still holding all the trappers that were in the woods and also all the men of survey parties.

## MISS DRAPER TO MAKE HER DEBUT

AND LAVISH GOWNS WILL BE  
WORN BY SMART SET, AMID  
SPLENDORS

Washington, D. C., Dec. 25.—A new mark for lavishment and splendor is expected to be set for society by the entertainment to be given by Mrs. William F. Draper tomorrow night to introduce formally her daughter, Miss Margaret Draper, who is a close friend of Miss Helen Park. The function will take the form of a formal dress occasion. Several hundred guests have been invited, among the socially elite of Washington and others from Boston, New York, Philadelphia and other cities.

It is estimated that the cost of the function will exceed \$25,000. The walls and ceilings of the large ball room will be hidden from view entirely by the floral decorations. Live hummingbirds brought from Florida and butterflies from California will fly around the miniature garden of daisies and rare exotics that is to be the central feature of the decorative scheme. The favors have been carefully kept from and much mystery surrounds them. They are said to be the most numerous and valuable ever given at a Washington cocktail.

Miss Margaret Draper, who is by far the most formal hostess to society, is popularly known as the richest unmarried woman in Washington. She inherited from her father, the late General William F. Draper, representative from Massachusetts and later ambassador to Italy, a fortune of \$5,000,000. She was to have been brought out here two years ago, but the death of her father made a postponement necessary and Miss Draper has spent the intervening time in European travel with her mother. She already has been presented at the court of St. James and has had considerable experience of social life in England and on the continent. She is the namesake and goddaughter of Queen Marguerite of Italy, who presented with one of her family pearls as the nucleus of a necklace. The stone given by the Queen has been equalled by others, which thing was added by Miss Draper's parents and the young woman's string of pearls is said to be one of the finest and most valuable owned by any woman in America.

While the passengers waited on street corners Saturday evening the incursion cars remained at a standstill, due to the fact that the power was shut off owing to a break at the power plant. This continued for over an hour and the cars were only just started when a wire broke, necessitating further delays until repairs could be effected.

## Make A Point On Wednesday!

the fourth remaining shopping day of this year, to visit THE GREAT RETIRING SALE. We have prepared some fine bargains in Ladies' Coats, Skirts and Furs

20 only LADIES' IMPORTED 54-IN. LENGTH COATS, in plain all wool Beaver Cloth, Cheviot and Tweed effects; every coat individually tailored and in this lot two popular styles are shown. ## FATHER COMUEAU EXPLAINS DECREE

(Western Associated Press.)  
Winnipeg, Dec. 25.—Rev. Father Comueau, resident priest of St. Mary's church here, has made the following statement in an evening paper in regard to the recent No Tenuis case at St. Boniface when he refused to permit a Catholic woman to see her Protestant husband unless they were married by the church.

"Suppose a Roman Catholic and a Protestant wish to get married, we will imagine the husband to be a Catholic, the parties are married by a Protestant minister. The moment the marriage is contracted the husband has forsaken the Catholic doctrine and can be no longer recognized as a true Catholic. The only way he can come back into the fold is by getting his legal wife in the Catholic faith. If the wife refuses and he insists on going back to the church the husband must take a vow never to be with her again. If then reinstated as a Catholic the man wishes to marry another woman, the ceremony to be performed by a Catholic priest, asked the reported, 'May he do it?'

"Well" was the reply, "We try and get the man to seek a state separation first, because in the eyes of the law he is still married and while the church does not recognize it we do not want to lay ourselves open to persecution. There is a way out, and that is by having a secret marriage."

"Take this as an instance. I am sent away on a mission a long way up the country, when I arrive a man comes to me and says: 'Father, I have committed a sin for which I am truly repentant. Three years ago I was married to a Protestant woman by a Protestant minister. Later we separated. We did not get a divorce and now I am living with another woman. Will you marry us?' I might say 'I will run the risk and marry you in the eyes of God.' I then get two witnesses, whom I can trust never to reveal what has taken place and I marry the parties in secret. After this they can never part as there is no such thing as a divorce in the Roman Catholic church. They are married in the eyes of God and the church, though perhaps not according to the law of the State. If the former wife should get to know of the second marriage I might be persecuted. One never knows."

BRANDON, Dec. 25.—Colonel R. D. Evans, auctioneer, and a prominent member of the Conservative party, has been officially notified of his appointment as Inspector of Schools in Lands. Evans has served for four years as alderman in the city council. He will succeed W. M. Ingram.

this morning released, the shooting of Lieberman was ruled \$5 and costs, however, for carrying a revolver.

# Johnny Hayes On Modern Athletics

On Account of Specializing Figures That the Future of American Olympic Teams Is Very Rosy

(By John J. Hayes.)

**Winner of 1908 Olympic Marathon.**  
New York, Dec. 25.—In the summer of 1906 at Athens, the American athletes won the greatest number of events they have triumphed in at an Olympic gathering.

In the five-mile event George Bonham was forced to lower his colors to Lieut. Hawley, the English champion, in 26 minutes 25 1-2 seconds. In those days this time was considered very fast, because the art of specializing had not begun to play so prominent a part in track athletics as it does today. Hawley won because he used a style common among English distance runners. It consisted of an extreme stride in the early part of the race, with the result that after a few miles the British leader was running in the lead all alone.

Bonham, like the majority of American runners, affected the American method, which differed in the respect that they used no early speed and depended on an average pace to win. In running parlance, the new method was termed "running from the gun" and it typifies the highest form of specialization in distance running.

## Studies English Method.

On his return home, Bonham, himself a great student of the game, realized this style was capable of better results. English method with a view to improving the time in this event. That he succeeded is proved by the fact that today he is still a champion and has continued to slip seconds from the five-mile figure up to the present day. To-day his five mile time is the American record, 23 minutes 13 1-2 seconds. In addition, he has made the best time in the five-mile championship race held at Gettysburg, Pa., in 1909, of 22 minutes 34 1-2 seconds.

The United States Olympic teams have proved victorious on many foreign grounds. Their success, however, is due to measure to specializing of which the Bonham example is a criterion, has spread our fame as the premier of athletic nations. On the contrary, English, which has always been the leader in the world, with the result that she has led to specialize within the past few years, distance events, seems to have neglected the essential element in the making of a champion.

## Three methods have come in vogue of late years which have a tendency to produce good athletes and champions through specialization or improved methods.

First, the professional coach, who has become the rule, where, years ago, he was the exception, has proved his worth by turning out champions every year, who not only break all the existing times but prove themselves to be better and more capable of coping with our athletic rival than their predecessors.

## Secondly, by teaching modern proper style in track athletics, the faults which crop up in a prospective champion, and which sometimes prevent a classier former from ascending to the championship, every under who comes under the Murphy, Lawson Robertson and Bernie tutelage. The reason for this is that style is very essential and is a condition of wonderful results. A move has been an apt tendency to slip into a humdrum style, which is not a condition of wonderful results. A move has been an apt tendency to slip into a humdrum style, which is not a condition of wonderful results.

Thirdly, the installing of training camps, which the athletic clubs and colleges have been productive of very good results. The men have regular hours for meals and are taught to give themselves proper time for the digestion of food before donning their track suits.

## Electric Restorer for Men

Phosphorus restores every nerve in the body and vitality. Prevents dryness and all skin troubles. Arrives at the proper time. Make you a man. Price 25c. Sold at L. H. Scott's Drug Store, 21, Jasper St., Edmonton.
